

QUALITY POLICY STATEMENT

BARIJ Munitions one of the subsidiaries of the Emirates Defense Industries Company (EDIC) strives to conduct its business of manufacturing of all ranges of ammunition, ranging from Small Arms ammunition, Infantry ammunition, Artillery ammunition and Aircraft ammunition & to provide the related ammunition services with the emphasis on service life surveillance with total commitment to supply to meet to our Customer's requirements, both internal and external; in conformance to all quality requirements.

Vision

To be the preferred strategic partner of the UAE Military and Armed Forces for conventional ammunition supply and services.

Mission

To be the reliable supplier in a most cost effective approach for conventional ammunition and services to the UAE Military, Law enforcement agencies as well as GCC/MENA market through growing local manufacturing capabilities and developing testing R&D competencies.

Quality Policy

In order to achieve this goal, at BARIJ Munitions we are committed to achieve the highest degree of Customer (internal and external) satisfaction and care for all stake holders & applicable requirements.

Continual Improvement of the quality management system through
Alignment of our Missions and Goals
Responsibility and Respect for our job and each other
Educating one another

We will achieve these objectives by:

- Ensuring that our Policy and Procedures reflect what we actually do, are appropriate to the purpose and context of the organization.
- Understanding the requirements of our job & the systems that support us - through training and development.
- Understanding our Customers' requirements - through open communication and transparency
- Ensuring on-time delivery of quality products at a competitive market price to the customers.
- Ensuring continual improvement as part of BARIJ Munitions culture - through the use of team participation and measurements.
- Ensuring risk-based thinking in implementing QMS processes.
