OUR SERVICE OFFERING.

At LAHAB, our advanced manufacturing capabilities are complemented by comprehensive testing and surveillance programs from assembly to decommissioning and demilitarisation, enabling us to offer continuous expert support throughout the munitions lifecycle, from assembly to decommissioning.

MANUFACTURING

Our manufacturing, assembly and integration capabilities are among the region's most diverse and efficient. With our capacities and more than 25 years of experience we are capable to deal with special requirements and more. Please see overleaf for our complete product range.

TESTING

Our multi-purpose instrumented testing ranges includes four (4) firing ranges indoor and outdoor, as well as mobile capability that can be deployed to military ranges on request.

SERVICE LIFE SURVEILLANCE (SLS)

We have the capability to perform SLS evaluation for all munitions types supported by UAE military platforms functioning within UAE range limits for land and sea.

DEMILITARISATION

We offer complete explosive and ammunition end-of-life demilitarisation for almost all types of explosives and pyrotechnics, featuring disassembly, separation and incineration using on site safe demilitarisation. We also make safe and dispose of commercial mining, oil and gas products.

TRAINING

Relevant and specialised training related to ammunition and explosives to enhance the ordinance knowledge and expertise.
